Glyanec.net | Vinnytsia, Ukraine

QA Engineer

During my time as a QA engineer at a web development company, I was dedicated to ensuring the quality and reliability of our websites. I diligently conducted comprehensive testing, performing functional, usability, and compatibility checks across different browsers and devices. By meticulously identifying and documenting issues, I collaborated closely with the development team to implement effective solutions and improve the overall user experience. Through my meticulous attention to detail and commitment to delivering high-quality websites, I played a vital role in maintaining the company's reputation for excellence in web development.

○ 2023 - ...

Freelance

Front-End Developer

As a freelance front-end developer, I specialize in crafting captivating and responsive web experiences. Leveraging my expertise in HTML, CSS, and JavaScript, I collaborate with clients to bring their visions to life. Whether it's creating visually stunning user interfaces, optimizing website performance, or implementing interactive features, I am dedicated to delivering high-quality solutions tailored to meet their unique needs. With a keen eye for design and a passion for coding, I strive to exceed expectations and provide seamless digital experiences that engage and delight users.
